

The Montecito plan is a modern design with multiple master suites branching away from a central dining and entertainment area. Each suite contains a full bath, with generous storage space provided by a walk-in closet. Ten-foot volume ceilings allow a more open feel throughout the house. The plan includes a close-off media room with a separate closet for wiring and hardware accessibility. The expanded garage features a drive-through and room for multiple vehicles.

Montecito
 2,928 sq. ft. living space
 3 bedroom, 3 1/2 bath
 + home theater/office
 3 car garage
 10 ft. ceilings
